Subject: Application for the post of software development unit.

Dear Mam,

I am very excited about the possibility of joining the Software Engineering Unit in the position of Junior Engineer as advertised news in times of India. I request your good self to give me an opportunity to prove my capability in your industry. I assure you that I shall give my best in getting the job accomplished.

I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new languages and development techniques are important to me and the success of your organization.

I have attached my resume for more details my project which I had done in diploma.

Reeya Patel
